

# Epidemiologic Profile St. Louis TGA - 2025

*J. Alex Plurad, MD, MPH*  
Epidemiologist - HIV, STIs, TB

# No Conflicts of Interest

# Today's Objectives

- *State the limitations that can affect the accuracy and completeness of reporting HIV/AIDS-related data within the St. Louis Transitional Grant Area (STL-TGA)*
- *Define each of the terms used to describe the Epidemiologic Profile*
- *Describe the distribution of HIV/AIDS within STL-TGA and the population subgroups affected*
- *Compare the trends and patterns of People Living with HIV or AIDS (PLWHA) within the STL-TGA by year, area, and subgroup*

# Data Limitations & Disclosures

# Data Limitations & Disclosures

## National Public Health Agencies

- *CDC*
  - *HIV data retrieved from National HIV Surveillance System (NHSS)*
    - *State & US Territory laws/regulations require confidential reporting by name for PLWHA ≥ 13 years of age*
      - *Data submitted to CDC after PHI removed*
      - *Dependent on confirmed HIV diagnosis, may not represent all PLWHA*
      - *Anonymous testing NOT reported to confidential name-based HIV registries*
  - **Latest HIV Care Continuum & Surveillance data released on 4/30/25 (incomplete)**
    - **Full HIV Surveillance Reports still delayed as of June 2025**

# Data Limitations & Disclosures

## National Public Health Agencies

- *CDC (cont.)*
  - *Data for 2023 & 2024 considered preliminary*
    - *Subject to 12-month reporting delay*
    - *Inclusion of such data in trends discouraged*
  - *COVID-19*
    - *Pandemic interrupted healthcare-related data 2020-2021*
    - *Counts <12 and/or from the Pandemic should be interpreted with caution*
  - *Since 1/20/25*
    - *Many websites under modification to comply with “executive orders”*

# Data Limitations & Disclosures

## State Health Departments

- *MO-DHSS*
  - *Data is typically “frozen” (finalized) in February for the prior year*
    - *WebSurv/Show Me World Care + Vital Records data frozen by June*
    - *2023 data not finalized until 2025*
    - *Epi Profile reports now done **every five years***
  - *Provided 2019 – 2023 data*
    - *Received Unmet Needs data in February 2025*
      - **Supplemental info available via online HIV dashboard + eHARS**

# Data Limitations & Disclosures

## State Health Departments

- *IL-DPH*
  - *Data frozen in July for the prior year*
    - *Epi Profile reports now done **every five years***
  - *Provided 2019 – 2023 data*
    - *Received Unmet Needs data in March 2025*
      - **Supplemental info available online via HIV Surveillance Reports**
  - *Different definitions*
    - *St. Louis EMA (Eligible Metropolitan Area)*
    - *Late HIV diagnosis: AIDS dx. within 1 year of HIV dx.*
    - *Suppression rules: cell sizes <10, cells ≥ 10 that can provide back calculation*

# Data Limitations & Disclosures

City of St. Louis DOH

- *Main focus on secondary data analysis (ie. Pre-existing data)*
  - *Primary data collected & entered by case investigators, case managers, etc.*
- *Access to SCOUT and eHARS databases*
  - *Different data organization, programming code, and user learning requirements*
  - *Case information not always consistent or shared*
  - *Databases updated at different intervals*
- *COVID-19*
  - *Pandemic interrupted healthcare-related data 2020-2021*

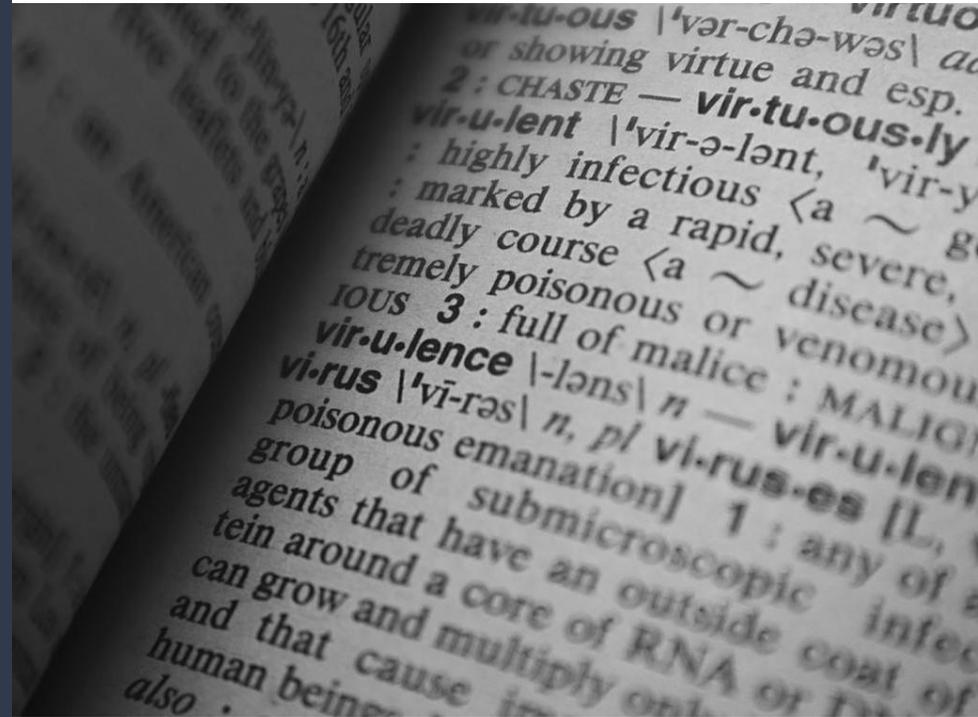

# Data Limitations & Disclosures

City of St. Louis DOH

- *Most recent data (2023, 2024) considered “provisional” and subject to changes from:*
  - *Reporting delays*
  - *PLWHA moving between jurisdictions*
  - *Resolving incorrect or missing data*
- *Small case counts → poor reliability*
- *Data suppression rules*
  - *Necessary to safeguard protected health info (PHI) & confidentiality*
  - *Aid in preventing identification of individuals in small groups and/or unique characteristics*

# RWHAP Terminology

Credit: "Nothing Ahead," <https://www.pexels.com/photo/words-in-dictionary-4440720/>

# RWHAP Terminology

## Population

- *Population Size: Number of people living with diagnosed HIV infection in the jurisdiction based on most recent known address who had an HIV diagnosis or any other HIV-related lab data (e.g., CD4, VL, genotype, or HIV test even if already diagnosed) reported to the HIV surveillance program during the most recent five calendar year period*
  - *HIV Prevalence: All living and diagnosed cases of HIV as of a certain date within a certain geographic area*
  - *HIV Mortality: Deaths among people diagnosed with HIV disease, regardless of cause of death, during a calendar year*

# RWHAP Terminology

## Diagnostic Status

- *HIV Incidence: All newly diagnosed cases of HIV in a given year*
  - *New Diagnoses: Number of people in the jurisdiction with HIV **diagnosed in a calendar year** based on residence at time of diagnosis*
  - *Late diagnoses: Number of people with **late diagnosed HIV in a calendar year** in the jurisdiction based on residence at time of diagnosis. Late diagnosed HIV is based on the first CD4 test result (<200 cells/mL or a CD4 percentage of total lymphocytes of <14) or documentation of an **AIDS-defining condition ≤3 months after a diagnosis of HIV infection***

# RWHAP Terminology

## Care Patterns

- *Linked to Care: Number of people newly diagnosed with HIV who visited an HIV healthcare provider (HCP) within 30 days of diagnosis*
- *Receipt of Care: Number of people with diagnosed HIV who had  $\geq 1$  CD4 or viral load (VL) test*
- *Retained in Care: Number of people with diagnosed HIV who had  $\geq 2$  CD4 or VL tests, performed  $\geq 3$  months apart*

# RWHAP Terminology

## Care Patterns

- *Met need (In care):* Number of people living with diagnosed HIV infection in the jurisdiction based on most recent known address *with a CD4 test or VL test in a calendar year*
- *Unmet need:* Number of people living with diagnosed HIV infection in the jurisdiction based on most recent known address *without any CD4 or VL test in a calendar year*

# RWHAP Terminology

## Viral Suppression

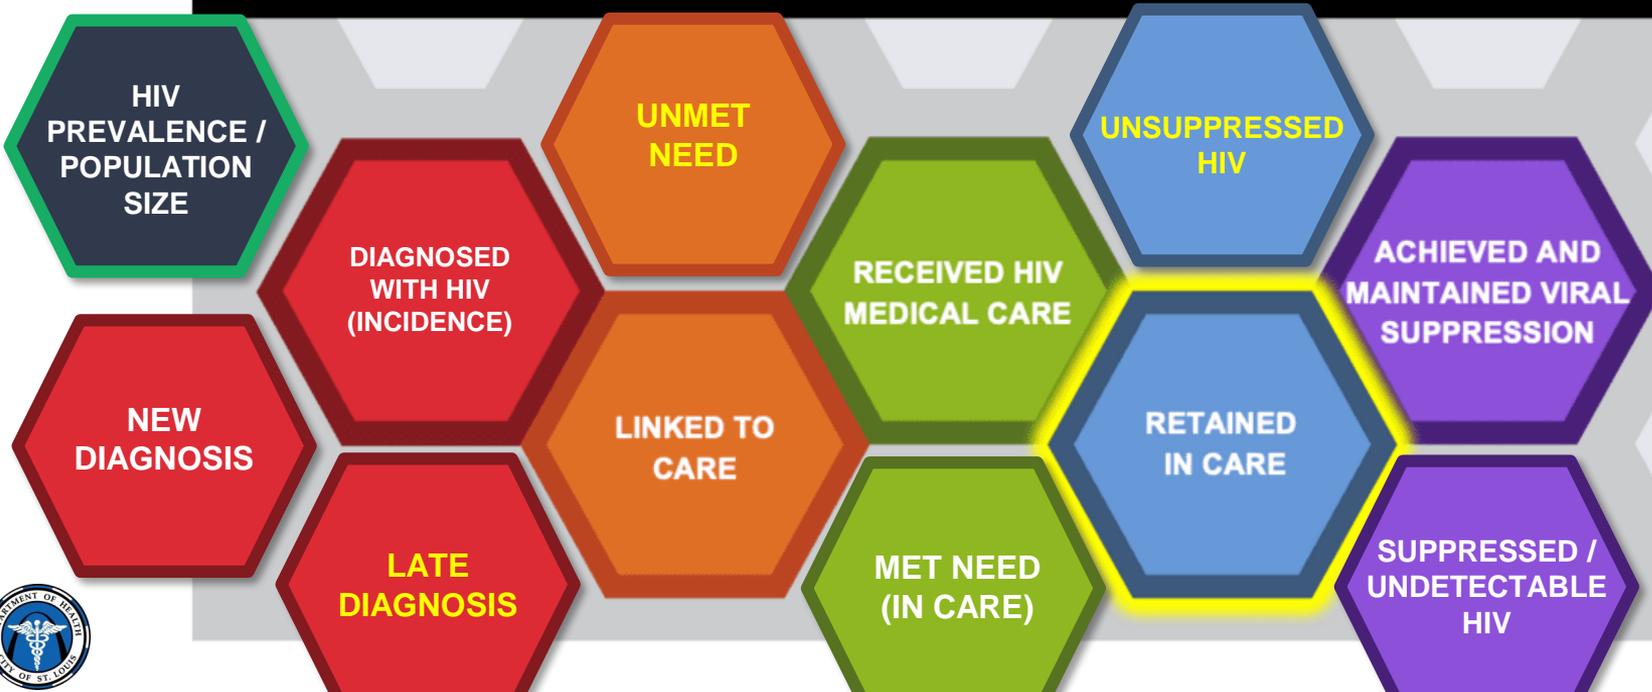

- *Virally suppressed: Number of people living with diagnosed HIV infection in the jurisdiction who are in care and whose most recent viral load test result was  $<200$  copies/mL in a calendar year*
- *Not virally suppressed: Number of people living with diagnosed HIV infection in the jurisdiction who are in care and whose most recent viral load test result was  $\geq 200$  copies/mL in a calendar year*

# RWHAP Terminology

# TGA Metrics

## Regional Profile, 2023

- Overall Demographics

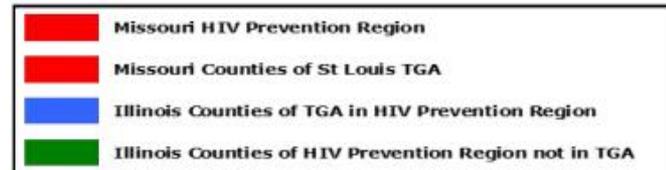

- Population: 2,743,815
- Sex: 48.8% male, 51.2% female
- Race: 70.5% White, 17.7% Black, 11.8% Other, 3.9% Hispanic/Latinx
- Edu. Attainment: 6.6% below HS, 25.2% HS grads, 30.2% some college or Assoc. Degree, 38% w/ Bachelor's Degree or higher

# TGA Metrics

## Regional Profile, 2023

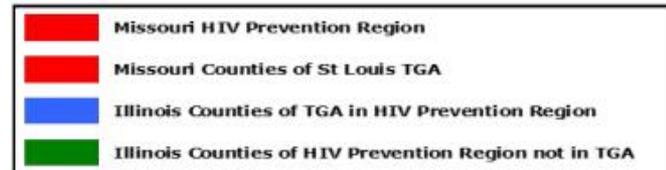

- Overall Demographics (cont.)
  - Income (median): \$79,813
  - Health insurance: 5.7% w/o insurance, 31.4% w/ public insurance
  - Below poverty level: 10.3%
  - Occupied households, no vehicle: 7.1%

# TGA Metrics

## Population by County, 2023

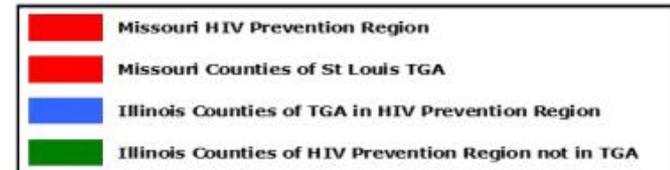

2023 COUNTY	Total Population	% of TGA
CLINTON, IL	36,899	1.3%
JERSEY, IL	21,336	0.8%
MADISON, IL	264,631	9.6%
MONROE, IL	34,969	1.3%
ST. CLAIR, IL	254,777	9.3%
FRANKLIN, MO	105,316	3.8%
JEFFERSON, MO	228,227	8.3%
LINCOLN, MO	61,636	2.2%
ST. CHARLES, MO	409,830	14.9%
ST. LOUIS CITY, MO	293,109	10.7%
ST. LOUIS COUNTY, MO	996,618	36.3%
WARREN, MO	36,467	1.3%
TOTAL	2,743,815	
AVERAGE	228,651	
MEDIAN	166,772	

# TGA Metrics

## HIV Prevalence, 2023

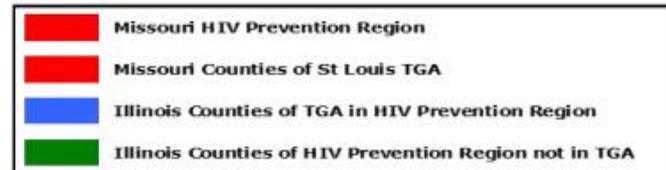

2023 COUNTY	# of PLWHA (13+ years)	% of TGA Prevalence	Rate per 100k
